

ARCHITECTSPARTY 2026 CONNECTIONS

June 16, 17, 18 2026

Architecture meets the city, the new edition returns to Milan

Official DrinkPartner: Baladin

ArchitectsParty, the parties in architecture studios, returns in 2026. The format, conceived and produced by TOWANT, transforms studios into places of meeting, dialogue, and contamination among professionals, creatives, and the public. The new edition returns on June 16, 17, and 18 to Milan and continues to London, after having already made a stop on May 26, 27, and 28 in Turin.

The studios involved in this new appointment will be: alErta design | ALP_ARCHITECTURE | J+S | JAM | MAC | mpa | Prospettiva BMS | STEFANO BOERI ARCHITETTI | STUDIOAM | TresoldiArchitecturalSpace and ZERODODICI ARCHITECTURE.

ArchitectsParty confirms itself as a unique format on the European scene, a series of free events hosted directly in architecture studios, which for the occasion open their doors and transform into spaces for informal discussion. An opportunity to tell the creative processes from up close and foster new synergies among the protagonists of the sector.

The theme of the 2026 edition, CONNECTIONS, becomes the common thread of a project that aims to build new relationships between architecture and the city. The goal is to activate a concrete dialogue between the studios and the most interesting and contemporary places of the urban fabric, creating connections between designers, spaces, and communities.

A distinctive element of the 2026 edition will be precisely the active involvement of the city. Each participating studio will be invited to identify a place akin to its own identity, a new, unconventional, or particularly representative space with which to activate a collaboration, or a partnership, on the occasion of its party. A way to expand the narrative of architecture beyond the boundaries of the studio, putting it in direct relation with the urban context.

With ArchitectsParty 2026, CONNECTIONS becomes thus much more than a theme; it is an invitation to rethink the role of architecture as a tool for relationship, capable of connecting people, ideas, and spaces, generating new possibilities for meeting.

The official DrinkPartner of the 2026 edition is Baladin, an independent brewery with entirely Italian production, which will accompany each event, helping to create an informal and convivial atmosphere.

Among the design partners of this first appointment are some of the most well-known and important brands in the design sector: Arketipo | Ceramica Sant'Agostino | Cesana | FerreroLegno | FIMA Carlo Frattini | Mafi | Masiero | Neolith and Nerosicilia.
